

I. AMENDMENTS TO THE SPECIFICATION

During the course of reviewing the specification, Applicant has detected therein certain minor informalities such as typographical and grammatical errors. Applicant has prepared a substitute specification in which the minor informalities have been corrected. In the process, Applicant has also reordered certain passages of the specification in order to facilitate its reading. Furthermore, the "Summary of the invention" section has been amended in order to reflect the amendments made to the claims under the present paper.

Accordingly, please replace the specification as filed with the substitute specification included in the Appendix following page 12 of this paper.

Attachment: A clean version of the substitute specification and a marked up version of the substitute specification showing changes made to the specification as filed are included in the Appendix following page 12 of this paper.
